Director of Institute for Rock Magnetism
Department of Geology & Geophysics
University of Minnesota

"Iron Oxide Nanoparticles at the Intersection of the Earth's Lithosphere and Atmosphere: Keepers of the History of Environmental Change?"

Thursday, April 17th
5:15 pm in CF120

Join us at the MAD! session on Thursday, April 17 at 5:15 pm in the Communications Building (CF120). This will be an interdisciplinary discussion session, whose purpose is to foster collaboration among students and faculty interested in materials science research.

All are welcome!

This event is sponsored by Western's Advanced Materials Science & Engineering Center (AMSEC). www.wvu.edu/amsec/
