

BFA DESIGN AREA ADVISING 2011/12

The Bachelor of Fine Arts in Design is an expanded degree that requires one extra year of studies in Design. Students must be either in the final quarter or have completed the Bachelor of Art in Design to be eligible to apply to the BFA. *Students who start as Freshman and are able to complete the 100-level and 200-level requirements in time to start the Winter quarter as Sophomores could complete the BFA*

in a 4-year time frame. Otherwise, it is expected the student will finish the BFA degree in 5 years.

A portfolio of work must be submitted to the Design Program, indicating their intent. It is advised that the student meet with at least two Design faculty to discuss the formation of a BFA committee prior to portfolio submission. Application to the BFA in Design should be made during

the spring quarter of the preceding year and will be reviewed by the Design faculty. All students must begin their BFA studies in the fall quarter. The Bachelor of Fine Arts in Design degree requires each student to complete the following program:

FRESHMAN YEAR

Complete Art 110 and Art 120

SOPHOMORE YEAR

251 Computers in Visual Problem Solving
 252 Drawing and Visualization for Design
