

PEACE CORPS PREP STUDENT GUIDE

The Peace Corps Prep program will prepare you for international development fieldwork and potential Peace Corps service. To accomplish this, you'll build four core competencies through interrelated coursework, hands-on experience, and professional development support. These four competencies, or "learning objectives," are the following:

1. Training and experience in a work sector
2. Foreign language skills
3. Intercultural competence
4. Professional and leadership development

This document explains each of these requirements in detail. ***Use this guide to map out your Peace Corps Prep course of study.*** In particular, refer to this when completing your PC Prep application, where you'll need to document how you plan to fulfill each requirement. **This guide aligns point-by-point with each section of the application!**

1. Training and experience in a specific work sector

3 courses + 50 hours related experience

Leveraging concrete knowledge and skills is central to on-the-ground international development work. Through this PC Prep program, you will begin to build a professional specialty, which should serve your career well whether or not you become a Peace Corps Volunteer.

For PC Prep, you need to complete at least **3 courses** that align with a specific work sector (they can but do not need to come from your academic major or minor). You also must accumulate **a minimum of 50 hours of volunteer or work experience in that same sector**, preferably in a teaching or outreach capacity.

***Peace
Corps
Tip!***

If you intend to apply to the Peace Corps, the best way to assure that you will be a strong candidate is to identify the type of assignments in which you'd like to serve through this [interactive tool](http://www.peacecorps.gov/openings) (www.peacecorps.gov/openings), then review the positions' desired qualifications and build them up accordingly. In the process, you should fulfill these PC Prep experiential requirements!

There are six sectors in which Peace Corps Volunteers serve—detailed below. **Choose one sector to focus on** then complete at least 3 courses + 50 hours of related experience in that sector.

Note: Actual Peace Corps assignments are based on local needs, and thus may or may not align seamlessly with your qualifications. Flexibility is central to the Peace Corps experience!

#1 **EDUCATION** (www.peacecorps.gov/volunteer/learn/whatvol/edu_youth/assignments/)

Teach lessons that last a lifetime. Education is the Peace Corp's largest program area. Volunteers play an important role in creating links among schools, parents, and communities by working in elementary, secondary, and postsecondary schools as math, science, conversational English, and resource teachers or as early grade reading and literacy teacher trainers. Volunteers also develop libraries and technology resource centers.

If you choose Education, take 3 courses from one of the following areas:

- Elementary, Secondary or Special Education
- English or Linguistics
- Environmental Education
- TEFL/TESL
- Math
- Natural Sciences Education
- Computer Science
- Engineering
- Management Information Systems
- Any Physical or Biological Science

*And build 50 hours of **related** field experience through an activity such as:*

- Teaching in one of these or a similar form: in a classroom, with a community outreach organization, or in a formal tutoring capacity
 - The subject of the teaching may be English as a Foreign/Second Language, special education, drama, or a STEM subject

#2 **HEALTH** (www.peacecorps.gov/volunteer/learn/whatvol/health/assignments/)

Serve on the front lines of global health. Health Volunteers work within their communities to promote important topics such as nutrition, maternal and child health, basic hygiene, and water sanitation. Volunteers also work in HIV/AIDS education and prevention programs to train youth as peer educators, develop appropriate education strategies, provide support to children orphaned by the pandemic, and create programs that provide emotional and financial support to families and communities affected by the disease.

If you choose Health, take three courses from one of the following areas:

- Nursing
- Communication Sciences and Disorders
- Biocultural Anthropology
- Health Specialist
- Physical Health
- Kinesiology: Pre-Healthcare Professions
- Community Health
- Biology
- Technical Education
- Industrial Design

*And build 50 hours of **related** field experience through an activity such as:*

- Volunteer or work experience in such areas as HIV/AIDS outreach, hospice, family planning counseling, emergency medical technician (EMT) or CPR teaching/certification, maternal health, and hands-on caregiving in a hospital, clinic, or lab technician setting
- Counseling or teaching in health subjects

- Working as a resident advisor in a dormitory, as a peer nutritionist, or as a sexually transmitted infections counselor
- Significant experience in mechanical repairs, construction, carpentry, masonry, plumbing, hydrology, or set design

#3 **ENVIRONMENT** (www.peacecorps.gov/volunteer/learn/whatvol/env/assignments/)

Help forge a global movement to protect our planet. Volunteers lead grassroots efforts in their communities to protect the environment and strengthen understanding of environmental issues. They teach environmental awareness in elementary and secondary schools and to youth groups and community organizations, empowering communities to make their own decisions about how to protect and conserve the local environment. Volunteers also address environmental degradation by promoting sustainable use of natural resources.

If you choose Environment, take three courses from one of the following areas:

- | | | |
|--|--|-------------------------------|
| ○ Environmental Science or related field | ○ Ecosystems | ○ Biology, Botany, or Ecology |
| ○ Freshwater Ecology | ○ Planning and Sustainable Development | ○ Geology |
| ○ Sustainable Design | ○ Toxicology | ○ Energy Policy |

And build 50 hours of related field experience through an activity such as:

- Educating the public on environmental or conservation issues, or working on environmental campaigns
- Conducting biological surveys of plants or animals
- Gardening, farming, nursery management, organic or low-input vegetable production, or landscaping
- Providing technical assistance and training in natural resource management

#4 **AGRICULTURE** (www.peacecorps.gov/volunteer/learn/whatvol/agr/assignments/)

Lead grassroots efforts to fight hunger in a changing world. Agricultural Volunteers work with small-scale farmers and families to increase food security and production and adapt to climate change while promoting environmental conservation practices. They introduce farmers to techniques that prevent soil erosion, reduce the use of harmful pesticides, and replenish the soil. They work alongside farmers on integrated projects that often combine vegetable gardening, livestock management, agroforestry, and nutrition education.

If you choose Agriculture, take three courses from one of the following areas:

- | | |
|----------------------|-------------|
| ○ Organismal Biology | ○ Economics |
| ○ Business | ○ Biology |

And build 50 hours of related field experience through an activity such as:

- Working with a large-scale or family-run business involving vegetable gardening, farming, nursery work, tree planting or care, urban forestry, livestock care and management, or fish cultivation and production
- Teaching or tutoring the public in environmental or agricultural issues/activities
- Working on the business management or marketing side of a commercial farm

#5 YOUTH IN DEVELOPMENT

(www.peacecorps.gov/volunteer/learn/whatvol/youth/assignments/)

Empower the next generation of change makers. Volunteers work with youth in communities on projects that promote engagement and active citizenship, including gender awareness, employability, health and HIV/AIDS education, environmental awareness, sporting programs, and info technology.

If you choose Youth in Development, take three courses from one of the following areas:

- Developmental Psychology
- Social Work
- Counseling
- Community Development
- Human Development

And build 50 hours of **related** field experience through an activity such as:

- Teaching or counseling in at-risk youth programs
- Activities that involve planning, organizing, assessing community needs, counseling, and leadership, in areas such as education, youth development, health and HIV/AIDS, the environment, and/or business

#6 COMMUNITY ECONOMIC DEVELOPMENT

(www.peacecorps.gov/volunteer/learn/whatvol/busdev_01/assignments/)

Harness 21st-century tools to help communities lift themselves. Volunteers work with development banks, nongovernmental organizations, and municipalities to strengthen infrastructure and encourage economic opportunities in communities. They frequently teach in classroom settings and work with entrepreneurs and business owners to develop and market their products. Some Volunteers also teach basic computer skills and help communities take advantage of technologies such as e-commerce, distance learning, and more.

If you choose Community Economic Dev., take three courses from one of the following areas:

- Business Administration
- Business and Sustainability
- Accounting or Finance
- Computer Science and related majors
- Graphic Design
- Communications
- International Business

And build 50 hours of **related** field experience through an activity such as:

- Working with businesses, organizations, or cooperatives in accounting, finance, microfinance, management, project management, budgeting, or marketing
- Starting and running your own business or other entrepreneurial activity
- Training others in computer literacy, maintenance, and repair
- Website design or online marketing
- Founding or leading a community- or school-based organization

**Peace
Corps
Tip!**

Nearly two-thirds of Peace Corps Volunteers serve in Education or Health. Coursework and meaningful experience in one of these areas—especially teaching English as a second/foreign language—produce some of the strongest candidates.

2. Foreign language skills

Requirements vary by language

Working across cultures often entails verbal and nonverbal languages distinct from your own. Building foreign language skills is thus a second key component of the PC Prep curriculum.

Where would you like to serve? PC Prep minimum course requirements align with those needed by applicants to the Peace Corps itself, which vary by linguistic region.

- Latin America: Individuals wanting to serve in Spanish-speaking countries must apply with strong intermediate proficiency. This typically means completing **two 200-level courses**.
- West Africa: Individuals wanting to serve in *French-speaking* African countries should be proficient in French (or, in some cases, any Romance Language), usually through **one 200-level course**.
- Everywhere else: The Peace Corps has **no explicit language requirements** for individuals applying to serve in most other countries. However, you will still likely learn and utilize another language during service, so it is only helpful to have taken at least one foreign language class.

Note: If you are a strong native speaker and want to serve in a country that speaks your same language, you can skip this requirement!

3. Intercultural competence

3 approved courses

Engaging thoughtfully and fluidly across cultures begins with one's own self-awareness. With this learning objective, you will deepen your cultural agility through **a mix of three introspective courses** in which you learn about others while reflecting upon your own self in relation to others. The goal is for you to build your capacity to shift perspective and behavior around relevant cultural differences. Some example courses:

You'll take at least 1 of these core courses:

- INTL 201 Introduction to Global Studies
- INTL 401 Global Issues

And choose 2 additional electives from the above list or these below:

- INTL 302 Global Citizenship
- INTL 312/FAIR312F Globalizations since 1870
- INTL 334/FAIR 334F International Law
- INTL 361/ECON 361 International Economics and Business
- INTL 325 Global Literature
- INTL 335/FAIR335F Global Biodiversity Science / Policy

- 4 – 8 credits from an approved study-abroad program, international exchange, or internationally-focused service-learning experience

Is there another course in the catalog that you feel meets this requirement? Please discuss it with your PC Prep Coordinator.

Peace Corps *Prolonged intercultural experiences—such as studying or volunteering abroad, supporting new immigrants or refugees acculturate to the United States, or volunteering in diverse schools—would also strengthen your Peace Corps candidacy significantly.*

4. Professional and leadership development

Resume and interview support + Leadership experience

International development is a highly professional sector. It is difficult to break into and demands great initiative and leadership to advance professionally within the field. PC Prep requires **three specific activities** that will strengthen your candidacy for the Peace Corps (or any other professional endeavor):

1. Have your **resume** critiqued by someone in your Career Services Center.
 - The Career Services Center and the Peace Corps Campus Representative developed a special application workshop focusing on professional resume writing for students considering Peace Corps Service. These workshops are offered at least once a quarter.
 - Students may attend one of the Career Services Center’s quarterly “Resume Clinics” to have their resumes reviewed by a career counselor.
 - Students may make individual appointments with Career Services Center counselors or peer advisors for resume critiques.
2. Attend a workshop or class on **interview skills** at your Career Services Center.
 - Students may attend Career Services Center and/or the Peace Corps Campus Representative’s workshops related to interview techniques.
 - Students have access to *Optimal Resume’s* interview module, an interactive, online interview training tool.
 - Students may make individual appointments with Career Services Center counselors or peer advisors for mock interviews.
 - Students may meet with the Peace Corps Campus Representative to gain knowledge about interview skills and techniques.

3. Develop at least one significant **leadership experience** and be prepared to discuss it thoughtfully. For example, organizing a campus event, leading a work or volunteer project, or serving on the executive board of a student organization.
- Internships and service learning are supported in each of Western's colleges and departments. These may involve: sustainable agriculture, environmental sciences, international service, teacher education, English as a Second language, health, business, youth development, community service, health education, and more.
 - The Center for International Studies offers a variety of faculty-led international study programs that often include service learning and volunteer opportunities.
 - The Career Services Center organizes the annual Community Volunteer and Internship Fair and co-hosts the Huxley Environmental Career & Internship Fair and the International Opportunities Fair; and quarterly career and internship fairs. The Career Services Center also posts internship and volunteer opportunities in Viking CareerLink. These internship and volunteer postings are shared across campus.
 - The Center for Service-Learning offers services that facilitate meaningful partnerships and between the university, local, regional and international communities. Service-learning is incorporated into many disciplines and faculty and student participants represent all seven colleges of the university. Their programs and services include: service-learning classroom support; and volunteer opportunities for students; and international service-learning programs.
