

2012-13 Employment Graduates 2012-2013 Status

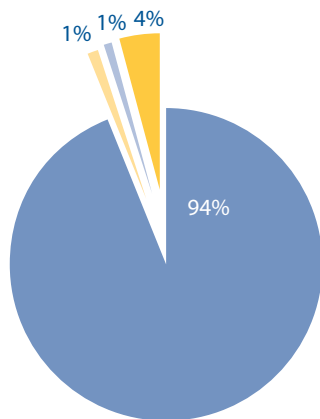

Career Services Center, Old Main 280

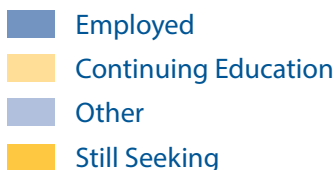

Bachelor's Degree Graduates

Master's Degree Graduates

Teacher Certificate Recipients

The Career Services Center of Western Washington University surveyed the graduates from the 2012-13 academic year (recipients of Bachelor degrees, Master degrees, and Teacher certifications). Graduates were invited to respond via email, mailed hardcopy, and then by phone. Employment data were also supplied by the University's academic departments.

As a result of these efforts, data were collected from 60% of the 3,213 students who received Bachelor degrees; 78% of the 347 students who

received Teacher certification; and 78% of the 257 students who completed Master degrees in 2012-13. Additional information, including names of hiring employers and internship locations, can be found on the Career Services Center website (www.wwu.edu/careers) and in Old Main 280. Questions regarding this report should be addressed to Tina Loudon, Director, or Aaron Ignac, Assistant Director of Operations, at (360) 650-3240.

Highlights Employment

The results of our 2012-13 survey indicate a slow, but continuing improvement in the job market for recent grads as compared to the past few years of economic volatility. Bachelor degree recipients reported the largest gains. Eighty two percent (82%) reported employment within six months of graduation as compared to 80% the previous year, and field-related employment increased to 53% from last year's 51%. However, average starting salaries were down 4%, decreasing to \$37,097 this year from \$38,741 last year.

Top employers of recent Bachelor degree graduates include (in order): Boeing, Logos Bible Software, Starbucks, Microsoft, Nordstrom, AmeriCorps, Costco, Target, Amazon, AVA.ai, and Google.

Overall employment for recipients of teaching certificates improved to 94% this year, with almost two-thirds employed as teachers within Washington State. The employment rate for Master degree recipients (84%) is slightly lower (by 1%) than last year's results.

Career and Internship Opportunities

The value of internship experience was again strongly supported by this year's survey results. Graduates with internship experience again found employment sooner and reported an average

starting salary that is about \$6,500 (19.6%) higher than students without internship experience.

Continuing Education

This year's percentage of Bachelor degree recipients seeking continued education (10.5%) is down somewhat from last year's results (11.8%), partially due to the improving job market. Continuing education was highest among disciplines such as Chemistry (48%), Biology (47%), Physics (47%), Philosophy (40%) and Communication Sciences and Disorders (37%).

Western grads continue to be extremely competitive in gaining admission to a broad range of programs: Columbia University (Clinical Psychology), Duke (Nursing), John Hopkins (Educational Studies), London School of Economics (Business Administration), St. Louis University (Medical Doctorate), UCLA (Chemistry), and Notre Dame (English).
