MINOR REQUIREMENT. Communication majors must take an official minor comprised of at least 25 credit hours, approved at the time of declaration. In *exceptional* cases, where a minor does not exist in the student’s field of interest, a student may petition for a self-designed minor. The self-designed minor must include a group of courses, comprised of 25 or more credits, approved at the time of declaration. A written rationale must be provided for a self-designed minor, demonstrating why an official minor will not satisfy the student’s needs and showing how the proposed courses constitute a coherent focus. *Note: A second major fulfills the minor requirement.*
