The Expected Graduation Date is set a number of years beyond the current quarter so that loan companies do not put students in repayment status.

The next section of the report includes the program areas. Each area represents a subset of requirements within a program. The requirements appear on the left and the courses that meet the requirements are located on the right. For completed courses, course credits and grades are also shown. Grades assigned to transfer courses are preceded by a 'T' (e.g. 'TB+' or 'TC'). To the far left of each area, the report clearly states if a requirement has been met or not met. To the far right, a source code indicates how the student completed the requirement. H=History (WWU graded course), T=Transfer equivalent, R=Registration (WWU in-progress courses). There is a Source Code Key prior to the program information on the first page of the degree evaluation.
