NOTES:

Trigger: 0.015 mg/L for Lead and 1.3 mg/L for Copper. If compounds detected at concentration are in excess of this level, contact your regional DOH office for further information.

SRL (State Reporting Levels): Indicates the minimum reporting level required by the Washington DOH

MCL (Maximum Contaminant Level): If the contaminant amount exceeds the MCL, immediately contact your regional DOH office.

< = This symbol before a number means the compound was not detected in the sample; also, the laboratory used a Method Detection Level (lab MDL) lower than the SRL.

COMMENTS:
