# Immigration Outside the Law

**Hiroshi Motomura**

Wednesday, April 29, 2009

12:00 Fairhaven Auditorium

How do we think about illegal or undocumented immigration? Why are some voices so vehement, while many remain ambivalent and uncertain? What will durable, politically viable solutions require? Hiroshi Motomura will discuss three key issues in the public debate: what it means for immigrants to be here unlawfully, the role of states and cities, and the integration of immigrants into U.S. society.
