<p>Literacy</p>	<p>Brief 300-500 word statement of personal career goals and reasons for seeking admission to the M.Ed. program.</p>

<p>Marine and Estuarine Science</p> <p>MESP BIO MESPES</p>	<p>The “statement of purpose” is a chance to show who you are beyond what is contained in your transcripts and your GRE report. Reviewers will use it to evaluate your experience, goals, motivation, enthusiasm and research interests. Your statement gives you an opportunity to explain anything in your “data” that may be unclear to the reader. You can highlight your strong points, particularly if they are not adequately expressed in your other materials. You can also discuss weaknesses in your record. This isn’t a chance to make excuses; instead, candidly discuss any extenuating circumstances that may help the reviewer understand your background.</p> <p>Your statement will be read by a review committee and by potential faculty advisers. Be sure to give some indication of the topic(s) you wish to pursue in graduate school and what adviser(s) you would like to work with. Your application will be stronger if you have actually communicated with those individuals beforehand and know that they are accepting students. You do not have to know your precise thesis topic; it is good to be flexible. However, it is inadequate to simply state that you like the oceans. Advisers like applicants who have thought about their future, know something about the field, and have developed their own interests.</p> <p>There is no set length for the statement of purpose. Half a page is too short; 4 pages is probably too long. Make sure the statement is well written as reviewers will use it to assess your writing ability. Use good structure and vigorously edit out grammatical errors, spelling mistakes and typos. It generally helps to have someone else (a friend, colleague, or professor) read and critique the statement.</p>
<p>Master in Teaching</p>	<p>A personal statement that describes your experience(s) with adolescents and your background as it applies to the teaching profession. Secondary Education faculty believe experience with diverse, multi-cultural populations benefits prospective teachers, so be sure to include any and all background or experience you’ve had with diverse populations.</p>
<p>Master of Business Administration</p>	<ul style="list-style-type: none"> - A statement of background -An assessment of the skills and knowledge you currently have -A description of the skills and knowledge you hope to acquire -A statement of your long-term career goals
<p>Mental Health Counseling (Psychology)</p>	<p>Please write a brief essay answering the following questions and requests for information:</p> <ol style="list-style-type: none"> 1. What do you consider to be the primary role of a mental health counselor? 2. What experiences in life, work, and/or schooling have you had that are relevant to the counseling profession? 3. Specifically why have you selected WWU’s counseling program? At this time, what are your long-range professional plans in the field of mental health? 4. Research expertise is an integral part of your training. Please indicate at least two areas of clinical research and/or practice in which you are interested.

516 High Street, Old Main 530
