To Extend the Offer to the Candidate

Once the Offer has been approved, the Originator of the Request to Offer form will receive an email notification. Use these steps to extend the offer online to the candidate.

Do not manually move your candidate into offer accepted status. The offer will need to be accepted by the candidate via the online process.
1. It is highly recommended you call the applicant to let them know you would like to make an offer
2. Click ‘Jobs’ in the top menu bar
3. Locate the job in the list, you can sort the list alphabetically by clicking on the column heading
4. Click the job title to open the job
5. Click ‘View applications’
6. Click on the application status (left of the applicant’s name)
7. Select ‘Online offer made’
8. Review and customize the email to the applicant
9. An offer email is sent to the applicant which provides instructions on how to view/accept their offer

Once the candidate accepts the Offer, a notification will be sent to the Search Coordinator/Originator of the Recruitment Request and the Supervisor or Onboarding Coordinator.

The candidate will also be prompted to complete new starter paperwork and given instructions on how to complete their Form I-9 if applicable. If an I-9 is required, once completed the Supervisor will be notified the hire is eligible to work. Once all paperwork is completed by the applicant, Banner will be updated through PageUp integration, a Personnel Action form is not required for hire. If any changes need to be made after the candidate has accepted the Offer, contact Human Resources for next steps.
