Interested faculty and staff (and students) are invited to apply for Student Technology Fee (STF) funding through a two-phase process. This document provides a process overview, timeline, and application instructions for faculty and (non-student) staff.

**PROCESS OVERVIEW**

**Phase One: Abstracts**

- Employees receive an email or similar communication regarding the annual Student Technology Fee and requesting Tech Initiatives abstracts (from AS VP for Academic Affairs and Vice Provost for Information Technology/CIO).
- An employee submits directly to the STF Committee a one-page abstract describing a project idea and its impact on students.
- The STF Committee evaluates all accepted abstracts (based on length and timely submission) and selects those for which the Committee would like to see full proposals.

**Phase Two: Proposals**

- The STF Committee invites (by email) the selected applicants from Phase One to provide full proposals. (Applicants of unselected abstracts are also notified.)
- The STF Committee reviews proposals, with advice from the Academic Technology Committee (ATC) and the general Western community.
- The STF Committee determines the final recommendation for project awards.
