

# Guide for WWU Supervisors and Managers to determine what to do if an employee may have COVID-19

Each question refers to within the past 14 days only. Covid-19 symptoms only manifest within 14 days of exposure.

Risk Level	What to do if the employee does <b>not</b> have symptoms consistent with COVID-19	What to do if the employee has symptoms consistent with COVID-19
<b>High Risk</b>	<ul style="list-style-type: none"> <li>The employee stays in quarantine for 14 days</li> </ul>	<ul style="list-style-type: none"> <li>Employee begins isolation precautions and contacts their medical provider for further recommendations</li> <li>Employee should <u>not</u> travel if they have symptoms</li> </ul>
<b>Medium Risk</b>	<ul style="list-style-type: none"> <li>The employee stays home with self-monitoring and public health supervision for 14 days</li> <li>Employee should not travel if possible</li> </ul>	<ul style="list-style-type: none"> <li>Employee begins isolation precautions and contacts their medical provider for further recommendations</li> <li>Employee should <u>not</u> travel if they have symptoms</li> </ul>
<b>Low Risk</b>	<ul style="list-style-type: none"> <li>The employee monitors for symptoms for 14 days.</li> <li>They can continue with their current work arrangements.</li> </ul>	<ul style="list-style-type: none"> <li>The employee calls their local health provider</li> <li>The employee stays home, avoids contact with others and does not travel until cleared by health provider</li> </ul>
<b>No identifiable risk</b>	<ul style="list-style-type: none"> <li>The employee continues to practice protective measures such as: washing hands, covering coughs, avoiding touching their face and staying home when sick.</li> </ul>	<ul style="list-style-type: none"> <li>The employee continues to practice protective measures such as: washing hands, covering coughs, avoiding touching their face and staying home when sick.</li> </ul>
