

THE POWER OF GIFTING A MASK!

#MASKUPWWU

Decorate a face mask then **SAFELY** gift it to someone special!

NAIA'S EXPERIENCE

"Receiving this mask made me feel grateful and happy. Taylor gifting me the mask made me feel as though she cares about my health and safety seeing as I'm working in a childcare facility currently."

BESHIR'S EXPERIENCE

"This gave me a good feeling. I didn't expect anything, and a gift that can be used so often is a gift more genuinely thought through. This sort of thing makes me feel more inclined to give. Having a bunch of traits within the mask that you recognized are a part of me helps me see you're a true friend. I appreciated it and felt the love."

SARA'S EXPERIENCE

"I decorated this mask for an old coworker of mine, they have always made going to work easier and brighter by leaving me little notes and bringing positivity to the room. We both have moved from Bellingham and try to stay in touch through mail sending each other art and other trinkets we make for one another, so for kindness week I sent her a decorated mask and a letter of gratitude! I hope it makes them feel as good and cared for as they always make me feel!"

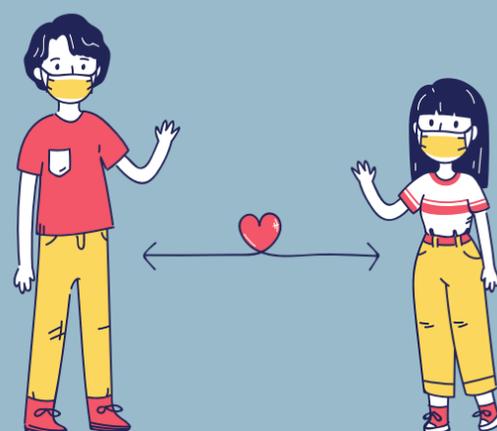

TRENT'S EXPERIENCE

"I spent some time making this mask for my sister. She always stops to say hello to every dog that passes when she is out, so I thought creating this mask would help her make some new friends. It was so much fun to give it to her and hear how excited she was to wear it during her next trip to the park"

SAFELY GIFTING A MASK

- Make sure to wash your hands
- Wash the mask in warm water and soap
- Once dry, put it in a plastic bag with a seal
- Seal the bag then place in an envelope and seal it
- **In person:** place envelope on table, back away and allow person to pick up the envelope
- **Through mail:** send like any other letter

Show off your mask using #maskupwwu
